"Happy Good Rural School with a Big Heart"

We have 2 children here, who both joined in Reception class, 1 currently in year 6 in their final year and 1 in year 4.

We chose this school firstly for its amazing outdoor playing and learning spaces which we haven't seen to this extent before in a primary school. Loads of interesting space for them to have fun.

Equally the friendly family atmosphere is so apparent as you walk through the door and is still as massive part of the school as it ever was, with the lovely teachers, parents and most importantly the children.

Not only have the children had and are still having a really good all round education with good teaching, but we believe they have benefitted from so much more because of these advantages as well as being in a small school. This gives them greater confidence and responsibility, mainly because they mix with all age groups out of class, have friends of differing ages and help and respect each other. They are not confined to their own age group/classmates.

There are of course now the well established before and after school clubs well run by Mrs Lilly, very popular with the children and is a huge help for working parents. Their enthusiasm for school and learning is wonderful, and we feel very lucky to be having them educated there.

Our eldest is now eagerly ready to make a strong start at secondary school in September with a long list of happy memories to take with him. Priceless!
